Unix Honor Pledge for CS 2150, Fall 2015	
On my honor as a student at the University cally given permission otherwise:	of Virginia, I agree, unless specifi-
<ul> <li>To not use any integrated development opment of C++ or assembly programs for include, but are not limited to, such de Eclipse, Netbeans, Xcode, Geany, Visual</li> </ul>	or the work for this course. These velopment environments such as
<ul> <li>This applies to IDEs on any platform, OS X, Unix, etc.</li> </ul>	, such as Microsoft Windows, Mac
• To develop my course programming work on Unix or Unix-like system. These systems include Linux (any variant), FreeBSD, Solaris, Unix systems installed on a virtual machine running on another OS (such as Windows or Mac OS X), remote Unix systems, and others as discussed in lecture.	
<ul><li>IDEs cannot be used in such systems pose.</li><li>Mac OS X is allowed as long as the IDEs are not used.</li></ul>	
<ul> <li>If there is any doubt about the applicability of this pledge, I will ask before assuming.</li> </ul>	
Failure to abide by this agreement will mean an immediate failure for the course, and the raising of honor charges.
